Here's the base puzzle. We need to get these two dials to align in order to solve the puzzle. The central dial has a face on it. Turn that face until it is in a standing position (eyes up, mouth down) Note that you CANNOT rotate them in game, but this has been rotated in an image editor. Now the outer dial can be aligned such that all lines of one color line up. In this puzzle, the blue lines are correctly spaced, and when rotated correctly, give you the highlighted answer. Total War Warhammer 2 Puzzles can be a lot of fun. Puzzles are a favorite pastime of many people. This game is no exception. This puzzle game is known as "the dial of old ones" and can be very frustrating at first. The "Mysterious Crypts" located to the southeast of Hysh, contains "the dial of the old ones". The large, broken obelisks arranged in a circular pattern around the entire crypt will help you recognize it. You will need to solve the dial of the old ones, which is located in the middle of the crypts. To open the crypts, the dial of the old ones is required. Steps to Solve the Dial

of The Old Ones PuzzleAweesome video from the Total War: Warhammer 2 puzzles explained (exploring solutions)
Cypher, Rubric, Cuboid, Dial of the old ones:Solution #1What are you going to do to solve this puzzle???Photo editorStep 1:This is the base puzzle. This figure has three circles. The outer circle is filled with symbols and shapes, the middle circle is a plain circle with few colored lines, and the innermost circle is filled with an image or face.You can take a screenshot of your computer so that you can make edits in the next step.Remember this: To solve the puzzle, you must only rotate the middle circle.Step 2:You can use your image editor to crop and rotate the innermost circles or those with an "image" that looks like monsters or demons.You can use your imagination to understand what I'm talking about. Keep your face in a standing position. (Mouth down, Eyes up). Like this one:Step 3:Now rotate the second circle, that plain, middle circle with very few colored lines, and search for matching combinations, just like this.That's all! This is the final solution to the cruel dial of old ones puzzle. Please note that the figures and puzzles you solve in-game may be different.Do not forget to imagine your "face" facing you (mouth down, eyes up).See Also:Solution #2Step 1:Get a pen, a sheet of newspaper, and a pencilStep 2:Place the paper on the screenStep 3:You need to note two crucial pieces of information about the inner circle: The end of the various line & their color and the face's middle lines. This will help you to draw a horizontal line at their end.Step 4:Rotate your paper to connect all lines and match the color of the middle ring.Step 5:Take note of the outgoing endpoints of the middle ring (the color is irrelevant at this point).Step 6:Rotate the paper so that the middle line of the face becomes a horizontal line.Step 7:Now, you can use the middle ring's lines to check the solution.These steps are from one user on Reddit: DerWishSolution #3You müt use a photo editor. I used Affinity Photo.Step 1:Make a circle from the center of "face". Rotate it until it is facing up.Step 2:Take out the second "color ring" and turn it until the color line matches the face.Step 3:Look for the symbols that 100% match.this is another solution by Reddit user RouterHax0rTotal Warhammer 2: Dial of the Old Ones LoreThe game is full of stories and quests. This is the Total Warhammer 2 lore.The Old Ones left vast amounts of power to their trusted servants around the globe. They placed cryptographic locks and wards over these troves to prevent them from falling into the wrong hands. These wards have become less effective over the millennia, but the arcane locks are still there.To find the treasure, you must solve the puzzle – the Old Ones believed alignment was all.The Dial of the Old Ones puzzle is part of Total War: Warhammer 2.This one is called Dial of the Old Ones and requires that you enter the right combination of symbols into the dial. You will be severely damaged if you enter the wrong combination.The magic will open a portal if you enter the correct combination.How to Solve the Cypher of the Old Ones Puzzles?
